	FP Fence Post UTI Unable to lift
	GP Gate Post VP Vent Pipe
	G Gully WO Wash Out
	KO Kerb Outlet WM Water Meter
	LB Letter Box WMF Wire Mesh Fence

NOTE. The Survey has been oriented to the O.S. National Grid (OSGB36) via a Global Position System and the O.S. Active Network (OS Net) OSGB36. True OSGB36 coordinates have been established at a point near the site centre and a further OSGB36 point established to create a true O.S. bearing for angle orientation. All levels are based on O.S. Datum. No scale factor has been applied to the survey and thus the Coordinate System is Arbitrary and not a true O.S. Coordinate System which would require scale factors to be applied to all distances. The Survey Station Table should be used to establish any on-site coordinates.

- NOTE.
1. This is a topographic survey and as such the physical features shown are not necessarily legal boundaries.
 2. Drainage information is by surface inspection only and cannot be guaranteed.
 3. This survey has been carried out at an accuracy commensurate with the scale shown on the title block of this drawing. Enlarging the drawing by digital means will not increase the accuracy of the survey.

Tree Information
 400/7/8 bole dia.(mm)/spread(m)/height(m)
 Tree species should be checked by an expert if identification is critical.
 Trees show average spread unless otherwise shown.

SHEET LAYOUT

SURVEY STATIONS			
Station	Easting	Northing	Level
